SAFETY DATA SHEET - MagicWax

SECTION 1. PROD	UCT IDENTIFICATION AND SUPPLIER	Supplier's Details:	Express! Solutions,			
Product identifier: Other means of identification: Product type:	MagicWax MW32 - 1 Quart, MW1 - 1 Gallon Surfactant/Oil Blend Liquid	-	411 Greenfield Dr. I Tiffin, IA 52340 (563) 299-0144 www.expresssolutio	Chippe Color Boundary		
Recommended uses: Restrictions on use:		Emergency phone number:	CHEMTREC (800)	424-9300 (24 HOURS A DAY) International: +1-703-527-3887		
Section 2. HAZARDS IDENTIFICATION Response : IF INHALED: Remove victim to fresh air. SWALLOWED:						
Standard (29 CFF	aterial considered hazardous by OSHA Hazard Con R 1910.1200). Jure: EYE IRRITATION – Category 2	nmunication		Rinse mouth. Do NOT induce vomiting. Call a poison center or physician. ON SKIN (or hair): Take off all contaminated clothing. Rinse skin with water or shower. IN EYES: Rinse cautiously with water.; Remove contact lenses, if present. Continue rinsing.		
hazard pictograms: Hazard Statements	Signal word: Danger		Storage: Disposal:	Store locked up. Store in original container. Dispose of contents and container in accordance with all local, regional, national and international regulations.		
General: Prevention:	Eye irritation - Category 2 Wear protective gloves. Wear eye or face protect Wear protective clothing. Keep only in original co	tion. C ntainer.	Hazards Not Otherwise Classified:			
Section 3. COMPOS	SITION/INFORMATION ON INGREDIENTS	Chemical N Proprietary i		% CAS Number		
Substance/mixture: Other means of Identification:	Mixture Not Available	Proprietary i Proprietary i	ingredient 2 Prop	- prietary - prietary -		
CAS number : Product code :	Not Applicable Not Applicable	There are no	o additional ingredients	rcentage of the composition has been withheld as it is a trade secret. present which, within the current knowledge of the supplier and in the con- ed as hazardous to health and hence require reporting in this section.		
Section 4. FIRST A	D MEASURES					
Necessary First Aid Measures Eye contact: Flush eyes with plenty of water, Check for and remove any contact lenses. Continue to rinse for at least 20 minutes. Get medical attention. Inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention. Skin contact: Flush contaminated skin water. Get medical attention. Ingestion: Wash out mouth with water. Do not induce vomiting. Get medical attention. Most Important Symptoms/Effects. Eye contact: Causes serious eye irritation. Causes serious eye irritation. Inhalation: Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure. May cause drowsiness or dizziness. Skin contact: Causes skin irritation Ingestion: May be irritating to mouth, throat and stomach Indication of Immediate Medical Attention and Special Treatment Needed, If Necessary Notes to physician: Treat symptomatically. Contact poison Treatment specialist. In case of inhalation of decomposition products in a fire, symptoms may be delayed.						
Section 5. FIRE-FIG	HTING MEASURES	J				
Extinguishing Media Suitable: Use an extinguishing agent suitable for the surrounding fire. Unsuitable: None known Specific hazards arising from chemical: In a fire or if heated, a pressure increase will occur and the container may burst. Hazardous thermal decomposition products: Decomposition products may include the following materials: carbon dioxide, carbon monoxide Special protective actions for fire-fighters: Isolate scene by removing all persons from vicinity. No action shall be taken involving any personal risk or without suitable training. Special protective equipment for fighters: Fire-fighters: bould wear protective equipment, self-contained breathing apparatus (SCBA) full face-piece operated in positive pressure mode.						
Section 6. ACCIDE	NTAL RELEASE MEASURES					
Personal Precautions, Protective Equipment and Emergency Procedures Personal precautions: No action shall be taken involving any personal risk or without suitable training. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Emergency responders: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. Environmental Precautions: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environental pollution (sewers, waterways, soil or air). Methods and materials for containment and cleaning up spills: Move containers from spill area. Prevent entry into sewers, water courses. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product.						
Section 7. HANDLING AND STORAGE						
Precautions for Safe Handling Precautions for Safe Handling Protective measures: Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container, kept tightly closed when not in use. Advice on general: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Wash hands and face before eating, or smoking. Store in accordance with local regulations. Store protected from direct sunlight in a dry, cool and well-ventilated area. Keep away from incompatible materials (see Secstorage, including incompatibilities: upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.						
	apagin to provent leakage. Do not store ill unia					

Section 8. EXPOSU	RE CONTROLS/PERSONAL PROTECTION	<u>v</u>	
Precautions for Safe H	<u> </u>		
Protective measures:			eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the
	original container, kept tightly closed when not		
Advice on general:	Eating, drinking and smoking should be prohibi	ted in areas where this material is handled, stored an	d processed. Wash hands and face before eating, or smoking.

incompationaics.	upight to prevent leakage. Do not store in unia		Su chvironnental contamination.
Section 9. PHYSICA	L AND CHEMICAL PROPERTIES		
]	
Appearance Division states	1 invited	Lower and upper explosive	
Physical state: Color:	Liquid	(flammable) limits:	Not available
Odor:	Red Cherry	Vapor pressure:	Not available
Odor Threshold:	Not available	Vapor density: Relative density:	>1 [Air = 1] 1.04 typical
pH:	6.0 to 8.0 [Conc. (%w/w): 10%]	Solubility:	Easily soluble in the following materials: water
Melting/freezing point:		Partition coefficient	Lasity soluble in the following materials, water
Boiling point/range:	Not available	n-octanol/water:	Not available
Flash point:	>93.3°C (>200°F)	Auto-ignition temperature:	Not available
Evaporation rate:	>1 (Butyl acetate = 1)	Decomposition temperature:	Not available
Flammability (solid, ga		Viscosity:	Not available
0		,	
Section 10. STABILI	TY AND REACTIVITY		
Reactivity:	No specific test data related to reactivity ava	lable for this product or its ingredients	
Chemical stability:	The product is stable		
Possibility of hazardou	IS		
reactions:	Under normal conditions of storage and use,	hazardous reactions will not occur.	
Conditions to avoid:	No specific data.		
Incompatible materials	Reactive or incompatible with the following m	naterials: oxidizing materials.	
Hazardous			
decomposition produc	ts: Under normal conditions of storage and use,	hazardous decomposition products should not be pro	duced.
Section 11. TOXICO	LOGICAL INFORMATION		
Exposure routes:	Eye contact, dermal contact, ingestion, inhalation	n Sensitization: There is r	no data available
Acute toxicity	Eye contact, definal contact, ingestion, initialate		
	Causes eve irritation, redness		as a carcinogen by OSHA, NTP or IARC a significant effects or critical bazards
